

CLIMATE COMPENSATED
ORGANISATION

CLIMATE CERTIFICATE 2022

CEMAsys' Climate Certificate™ is hereby issued as a proof of planting of mangrove trees, for voluntary offsets of own greenhouse gas emissions. As a result of the planting, the project will each year issue climate quotas in line with the VERRA Verified Carbon Standard, and these can be tracked in the register with its unique serial number. The project contributes to meeting a number of the UN's sustainability goals.

| | |
|-----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Organisation | Mills AS |
| Offsets cover | Klimakompensert egen virksomhets drift Scope 1-og 2 |
| Volume (tonnes CO ₂ e) | 1682 tCO ₂ e |
| Tree planting | 7 500 Mangrove trees (3 ha, 4,5 trees per tCO ₂ e) |
| Type | VERRA Verified Carbon Standar (VCS) |
| Project name | Reforestation and restoration of degraded mangrove lands in the Thor Heyerdahl Climate Park, sustainable livelihood, and community development in Myanmar |
| Project reference | https://registry.verra.org/app/projectDetail/VCS/1764 |

The climate credits will be issued by the VERRA Registry on a yearly basis based on a third-party verification and will be retired from the registry permanently, so that no one else can hold or retire them.
